Wireless mmWave Presentation System

EXPERIENCE THE WIRELESS LIKE NEVER BEFORE

The VisionShare AC series is an advanced wireless presentation and collaboration system designed to transform traditional meeting rooms into modern, stylish collaboration spaces. Leveraging cutting-edge 60GHz technology, it delivers true performance with zero latency and lightning-fast speeds, ensuring seamless, high-quality presentations.

With its intuitive USB-C plug-and-play functionality, VisionShare provides unmatched convenience, eliminating the need for complex setups or additional software installations. This powerful solution not only simplifies the presentation process but also enhances productivity and engagement, making it an ideal choice for businesses aiming to create dynamic and efficient meeting environments.

USB-C Plug'n Play

Intuitive True Plug'n Play without learning curve; compatible with all USB-C devices (support DisplayPort output)

System Compatibility

TCO investment, USB-C connectivity has no system upgrade, update and compatibility problems.

Free WiFi interference

60GHz proprietary frequency are free from other WiFi interference withi high secure and stability performance.

True video/audio performance

VisionShare offer high and true performance without video compression. Seeing is believing!

Cable-like experience

Cable-like experience by instant transmission without latency. Enjoy high speed performance wirelessly.

Power Direct

USB-C transmitter powered directly through personal devices support audio/video and power function.

Customized device name and time

Allows users to personalize each device's name and system time to identify meeting rooms.

Design own Start-up Screen

Enables companies to customize the startup screen by incorporating their own logo and high-resolution 4K images.

Support BYOD & Split-screen

Support BYOD devices, including Airplay (iOS/MAC) / Chrome / Windows and Android systems

Product Specification

Technology & Features

Frequency Band	60GHz (59.4GHz to 63.56GHz) WirelessHD mmWave Technology
Video output	HDMI 2.0, comply with HDCP
Output resolution	800x600, 1024x768, 1920x1080, 1920x1200 (WUXGA), 3840x2160 (UHD)
Max. data rate	10 - 28 Gbit / second
Wireless Distance	10 -15 meters
Transmission	Beamforming
Video quality	3840x2160@30Hz True performance (uncompressed)
Latency	Zero latency (Avg. <2ms)
Support OS	Windows / MAC / Android / iOS / Chrome
Security protection	Point to Point connection, HDCP/DTCP certificated, Proprietary netowrk, raw data encryption, customized ID code protection
Beauty carton	35 (W) x 26.5 (L) x 15.5 (H) cm; Weight: 3.5Kg
Accessory	Power Station(PS20) x 1, Power adaptor x 2, HDMI cable x 1, MicroUSB cable x 1
Outer carton	35 (W) x 54.5 (L) x 33 (H) cm; Weight: 15Kg
Country of origin	Made in Taiwan

VisionShare Receiver

OS system	Android 5.1 system
Power Consumption	DC adaptor 5V 4A, AC input 100-240V, 50-60Hz
BYOD	Yes. Mirroring360 (support Android / MAC / iOS / Windows / Chrome)
Airplay / Mirroring	Yes. Mirroring360 (support Airplay / Mirroring)
I/O connectivity	HDMI output x 2, USB 2.0 x 2, Aduio-out x 1, LAN x 1, Reset x 1, DC power x1
LED indicator	Red (Searching), Blue (Paired, ready to play), Green (Presenting)
Dimension & Weight	195 x 120 x 24mm; 500g

VisionShare Transmitter

Transmitter type	USB-C x 2
Signal LED indicator	Red (Searching), Blue (Paired, ready to play), Green (Presenting)
Play & Pause button	x 1
I/O connectivity	USB-C x 1, micro-USB x 1
Dimension	Red (Searching), Blue (Paired, ready to play), Green (Presenting)
Weight	USB-C: 89g

**NorthVision offer 3 years parts warranty and 1 year transmitter warranty
